## Summary

Creative thinking + UX + prototyping = Minimum Viable Product.

I am a PWA, CMS, and dashboards FrontEnd developer. Working with serverless and JAMstack architecture at the present.

As Devops, I can create and maintain your CI / CD pipeline. In addition to automating processes using the configuration as a code.

## Experience

### FrontEnd & DevOps

#### System73® - Powering Profitable Streaming

Feb 2016 - Present (5 years 10 months +)

As DevOps (2016-2018): I have worked with Jenkins pipelines, integration tests, docker, Python, Bash, Linux servers, and AWS cloud.

As FrontEnd (2018-Present): I am working with Vue, Nuxt, WordPress, Javascript, CSS, unit tests, documentation, git, and Django.

At System73, we write software that brings OTT video delivery to the next level. Serving the highest resolution and guarantee delivery for an unlimited number of concurrent linear video streams. Avoiding bottlenecks and giving you the best analytics.

### New Technologies Project: Tools for the Deaf People social inclusion

#### FASICAN

Dec 2014 - Jun 2015 (7 months)

Project financed by the European Social Fund and the State Public Employment Service. The project's purpose was to facilitate contact and communication between FASICAN, deaf people, and society, bringing services and resources to the maximum possible number of beneficiaries through new information and communication technologies.

Completed tasks:

- Deployment of online video interpretation service in Spanish Sign Language (SVisual).
- Research and implementation of ICT solutions.
- Web positioning.
- Programming in HTML, CSS, Java-Script and php.
- Creation of the FASICAN website <http://www.fasican.org>.

### University internship

#### Open Canarias SL

Mar 2014 - Jun 2014 (4 months)

- I worked on developing Java plugins for the Eclipse environment using design patterns.

- Also, I collaborated on a research project of the R&D department.

### **Higher National Diploma internship**

Hospital Universitario de Canarias

Mar 2010 - Jun 2010 (4 months)

I worked in the maintenance and management of the hospital's computer systems.
